

Mindseed Limited

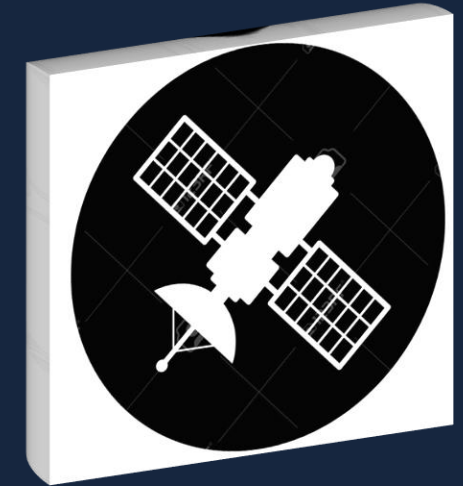

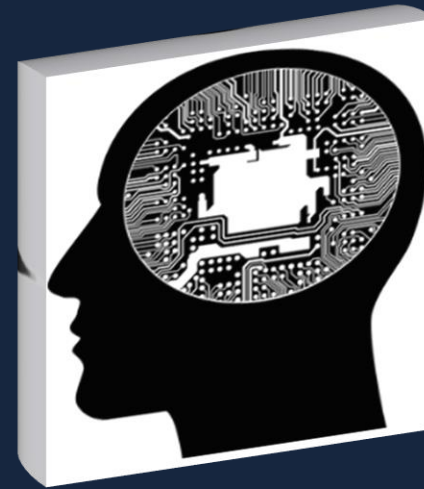

Linking Space and Ground Technology

Use our experience to optimise your idea

LINKING SPACE AND GROUND TECHNOLOGY

- Mindseed is a Dublin-based Information & Communications Technology (ICT) company, founded in 2011, that specialises in space-related technologies.
- We focus primarily on the ICT product and services sectors in Ireland and Europe, specialising in telecommunications, satellite system integration, space technology, Internet of Things (IoT), Machine to Machine (M2M), and business digitisation.
- We work with companies to develop/enhance viable business and technology roadmaps incorporating space assets.

Use our experience to optimise your idea

FUNDING

- We specialise in securing Irish and European Funding for our client companies, particularly through the European Space Agency (ESA).
