Foreword

Julie Sinnamon,
Chief Executive Officer, Enterprise Ireland

I am delighted to present the HPSU Class of 2020, a resilient innovative group of entrepreneurs who despite the challenges of the past year did not allow themselves to be daunted by what was ahead of them, but who pressed on with their teams determined to fulfill their global ambition. In 2020 we invested in 125 new start-ups.

To our inspiring founders, I have seen your development from concept to investment and I have no doubt you will become part of the ever-growing number of internationally focused Irish businesses that are increasing Irish exports and jobs. You are vital to accelerate our post Covid economic recovery.

I am also delighted to acknowledge our colleagues from the wider business community - Investors, VCs, finance partners, LEOs, BICs and our MNC partners. It is hugely encouraging to see the level of collaboration and engagement across the Irish ecosystem. Making Ireland a great location to start and scale a business is a key pillar of ‘The Formula for Success’, Enterprise Ireland’s Action Plan to develop HPSUs.

We have invested heavily in building a portfolio of HPSUs over the past decade. In 2020, Enterprise Ireland invested more than €48m in new start-ups and in sustaining and growing 150 HPSU companies from previous years to come through the Covid pandemic better and stronger. This is the highest level of funding that Enterprise Ireland has awarded to young companies bolstered by the Sustaining Enterprise Fund and Innovative Aid.

A strong start-up economy is vital to the future of Ireland and while we were focusing on adapting to a future of greater digitalisation and automation, Covid has massively accelerated the speed of this change.

Now more than ever before we need to be innovative and carve out even more niches in international markets where business will once again thrive. Tackling climate change is a priority and opportunities will be there for the taking by innovative and agile companies. Irish start-ups have proven their
resilience in rising to the immense challenges during this unprecedented year and I have every confidence that by continuing to work smarter together we will meet these challenges head on and will make Ireland a leading digital green economy led by fast-scaling innovative businesses across all regions of Ireland.

I wish the class of 2020 every success and we look forward to continuing to support these companies as they scale internationally.
Start-Up Activity 2020

- **€48m**: Total Enterprise Ireland investment in Start-Ups
- **80**: High Potential Start-Ups supported
- **45**: New Competitive Start Funds (CSFs)
- **38**: Women-led Start-Ups (19 HPSU + 19 CSF)
- **12**: High Potential Start-Ups from third level research
- **44**: Follow on investments
Regional Spread of 2020 Start-Up Activity

Acutrace
Acutrace is a software and systems integration company measuring energy consumption in commercial and industrial buildings. The company's Energy Measurement System helps businesses to reduce their energy costs, meet their sustainability, CSR and ESG targets and comply with internal and external energy and carbon reporting requirements.

Contact Details
Aidan McDonnell
E: aidan@acutrace.com
W: www.acutrace.com

AKKURE Genomics
AKKURE is a patient-centric digital platform that uses AI to match patients’ clinical and genomic data with the most relevant clinical trials. AKKURE’s platform enhances patient recruitment and retention, optimizing trial success, fused with a more precise telemedicine network that personalizes patient access and rewards.

Contact Details
Oran Rigby
E: o.rigby@akkure.com
W: www.Akkure.com

All Real Nutrition
All Real Nutrition is a premium sports nutrition and lifestyle brand that believes in sustainability, using only natural ingredients and enjoying time in the outdoors. The company manufactures its products in-house in Co. Kerry and uses local ingredients where possible (i.e. milk protein from Co. Kerry).

Contact Details
Ross McDowell
E: ross@eatallreal.com
W: www.eatallreal.com
Altada Technology Solutions

Altada provides AI solutions to companies with large, unstructured data sets. Companies need to incorporate next generation disruptive solutions in data management that can bring both business and operational value. Being able to harness data effectively drives competitive advantage for Altada clients.

Contact Details
Allan F Beechinor
E: allan@altada.com
W: www.altada.com

Altum Analytics

Altum Analytics was founded by experts with a mission to help organizations transform their customer relations processes including sales, marketing, customer success, and support, using a data-driven approach.

We are proud to be a Pledge 1% company that supports education.

Contact Details
Dmitry Korzhik
E: d@altumanalytics.com

Antikytera e-technologies Ltd

Founded in 2017 as a technology company providing AR solutions for a new level of remote collaboration, Antikytera is now valued at more than €15m and growing. Over the next five years, the company plans to become the global leader in this market.

Contact Details
Kristian Karazissis
E: info@antikytera.com
W: www.antikytera.com
Atturos
Atturos develops advanced diagnostic tests.

Contact Details
Stephen Pennington
E: stephen.pennington@atturos.com
W: www.atturos.com

BioSimulytics Ltd
BioSimulytics has developed a unique software platform using Artificial Intelligence (AI) and supercomputing to accurately predict the energy force-fields and crystal structures of new molecules, which can play a key role in the digitisation of next-generation drug development in the pharma/biotech sector.

Contact Details
Peter Doyle
E: pdoyle@biosimulytics.com
W: www.biosimulytics.com

Borrisoleigh Bottling Ltd
Borrisoleigh Bottling is a bottled water business, delivering water from an award-winning source, in a way that is sustainable to the environment using innovative packaging solutions (carton, box, glass, RPET) that are single-use-plastic alternatives. The company has highly experienced staff and a 6000+ Sq-metre production-ready facility.

Contact Details
Dermot Honan
E: dermot@bblco.ie
W: www.bblco.ie
Bounce Insights

Bounce provides a consumer data and insights platform that connects consumer brands with their target audiences so they can ask questions and receive answers on demand. The platform provides the fast results, quality respondents and easy-to-use interface needed for brands to run an insights-driven business.

Contact Details
Charlie Butler
