

UNIVERSITY
of
LIMERICK
OLLSCOIL LUIMNIGH

Research Institutes

The University of Limerick is recognised to have particular strengths in the areas of Materials, Advanced Manufacturing, Software, Health, and Applied Mathematical Sciences. UL's research successes are enhanced by the ongoing development of interdisciplinary research institutes, Research Centres, and collaboration with international academic and industrial partners. UL currently has three multidisciplinary institutes:

[Bernal Institute](#)

[Health Research Institute](#)

[Lero](#)

Hosted National Centres

The University of Limerick is host to a number of Research Centres and units including national externally-funded research centres.

[Mathematics Applications Consortium for Science and Industry \(MACSI\)](#)

[Pharmaceutical Manufacturing Technology Centre \(PMTC\)](#)

[Synthesis & Solid State Pharmaceutical Centre \(SSPC\)](#)

[Epi-Stem - National Centre for STEM Education](#)

[IComp - Irish Centre for Composites Research](#)

[Dairy Processing Technology Centre \(DPTC\)](#)

[4i Centre for Interventions in Infection, Inflammation & Immunity](#)

Automation Research Centre

Biomedical Electronics Research Centre

[Carbolea, Research group for advanced biomass strategies and technologies](#)

Centre for Advancement of Mathematical Education in Technology

Centre for Applied Biomedical Engineering Research (CABER)

[Centre for Applied Language Studies](#)

[Centre of Biostatistics](#)

[Centre for Crime Justice & Victim Studies](#)

Centre for Entrepreneurial Studies

[Centre for European Studies](#)

Centre for Historical Research

[Centre for Information and Knowledge Management](#)

[Centre for Irish-German Studies](#)

Centre for Pre-Hospital Research

Centre for Social Issues Research

[Composites Research Centre](#)

[Centre for Robotics & Intelligent Systems](#)

[DMARC – The Digital Media and Arts Research Centre.](#)

Education Media Research Centre

Energy and Sustainable Environment

[Enterprise Research Centre](#)

[Environmental Research Centre](#)

[Food Science Research Centre](#)

[Interaction Design Centre](#)

[Irish World Academy of Music and Dance](#)

International Centre for Sustainable Enterprises

[Irish Centre for Composites Research \(iComp\)](#)

John Holland Research Centre

[Localisation Research Centre](#)

[MACSI - Mathematics Application Consortium for Science & Industry](#)

Microelectronics and Semiconductor Research Centre

[Mobile and Marine Robotics Research Centre](#)

[National Centre for Tourism Policy Studies](#)

[Optical Fibre Sensors Research Centre](#)

[PE PAYS Research Centre](#)

[Ralahine Centre for Utopian Studies](#)

[Research Centre for Education and Professional Practice](#)

[Synthesis and Solid State Pharmaceutical Centre \(SSPC\)](#)

Software Quality Research Laboratory

Telecommunications Research Centre

[Wireless Access Research Centre](#)

Research Units

[Biomechanics Research Unit](#)

[Curriculum Development, Evaluation and Policy Research Unit](#)

[Employment Relations Research Unit](#)

Magnetic Research Laboratory

Ireland's EU Structural Funds
Programmes 2007 - 2013

Co-funded by the Irish Government
and the European Union
